## **Quality Control Mechanisms**

Synonymous with quality, our products constantly set new examples for excellence in the industry. The cornerstone of our success, quality - is of paramount importance to us in all our operations. Through a strict regimen of quality checks & controls, we maintain a consistency in the quality of raw materials procured, in the quality of work done, in packaging, transportation, etc. This has been much admired & respected by our customers world-wide.

## **We Conduct Market Research for Product Development**

To maintain our leading position in this intensely competitive market place, we undertake extensive R& D for product development and improvement on a continuous basis. Moreover, we also take up market researches. This not only enables us to deliver new products but also lets us incorporate the customer's suggestions and requirements in our product line.

## **Catering to Global Marketplace**

Our superior quality products has been widely applauded all across the globe for designs and finishes. We boast of serving some of the renowned customers. We understand that the customer is the focal point of all our efforts. However, practice has taught us that all these efforts are fruitful when suppliers and employees are equally important. Hence, we endeavor to build long lasting relationships that satisfy all the partners in the business process.

## **Marketing Department**

Faith International has a very strong marketing team headed Mandeep Singh (Marketing & Media) having a longstanding rich experience of Sales and Marketing. He is assisted by a group of experienced senior and junior sales and marketing managers and executives. The day-to-day coordination among the team has made the company successful in having flawless interaction with dealers and the investors. Investors and the dealers feel they belong to the Faith International family where their interests are looked after by the company promptly.

For successful execution of the different schemes of the Company, Faith International have identified a team of dedicated and result oriented Dealers who have been in the Garment Industry business for a very long time.

## **Sampling Department**

Sampling are the main process in Garment Industry and it as a vital role in attracting buyers. Because the buyers generally places the order after they are satisfied with the quality of the samples. The samples decide the ability of an exporter. So it is essential that the samples should be innovative and with optimum quality. By doing sampling the exporter can estimate the yarn consumption for developing the fabric, a clear idea on costing more ever the manufacturing difficulties. And this important work is managed by Mohd. Shehzad and Mohd. Imran. He is qualified and having a vide experience in this field.
